## FROM WASHINGTON.

DONNELLY-WASHBURN CASE—  
UNEXPECTED COMPLICATIONS.

Mr. Springer Chairman of the House Committee on Elections Pre-fers Charges.

WASHINGTON, April 3.—The Donnelly-Washburn case bids fair to lead to a new and unexpected complications.

Mr. Springer, chairman of the House Committee on Elections, having received a letter from Representative Manning, stating that he proposed to prefer charges against him (Springer,) offsetting motives which actuated his course and determined his vote in case, will on Monday, call attention of the House to the matter and to ask for a thorough investigation. In conversation to-day, while declining to express an opinion as to the true source or animus of the attack upon the integrity of his conduct, Mr. Springer said, that as a favor to some of his colleagues and constituents, he had voted upon the Donnelly-Washburn case in accordance with his convictions and that not a shadow of foundation exists for any charge or insinuation of corrupt motives or improper influence.

Mr. Hough, of Tennessee, replied to the speech of Mr. Springer by Mr. House, of Tennessee, in which the gentleman had opened the Tilden campaign, and had so forcibly reiterated the ancient cry of fraud. He denied that the gentleman had expressed the sentiment of the people of Tennessee. If he had, he said, that of his party his speech would stand as a monument to the vindictive and malignant hate of that party. The country was told that there had been no loyalty in the South during the war, and it was told that he had been led by the copperheads of the North into the venomous serpents of the world. He said that there had been many loyal men in the South, and that that section had furnished the Federal army with nearly a half million men. It seemed that this service was to be forgotten, and the Tilden campaign prosecuted, on the policy that the South had been the chief to be regarded as the badge of political infamy and social dishonor. His colleague (House) had attacked the President. He would not attempt to defend the President, for that officer needed no defense.

For his colleague to assert that President Hayes had been magnified by traitors equivalent to making an admission that the Democratic party had been brave enough in 1861 to force war without cause, but too cowardly to do so in 1877, when it said that the President had been counted in by the unconditional traitors. How could the mighty fail?

But it had come out that the majority of the chivalrous Democracy of the South. He then turned his attention to the "Political Assessment" bill, ridiculing the present civil service system, and referring, in the course of his remarks, to George William Curtis as the prime political humbug, and to Secretary Sherman as the king of Civil Service Reform.

Mr. Lowe, of Alabama, spoke in opposition to the Funding bill. He had always had Democratic sympathies, but he declared here and now that of the two—high tariff and hard money—the Democrats were not to be preferred to hard money and high tariff Republicans.

The committee rose and the House adjourned.

NEW YORK, April 3.—Dispatches from Paris, Berlin, Vienna and Rome represent that disappointment and uneasiness are felt in these capitals at the success of the Liberal party in Great Britain, while at St. Petersburg the news is received with the utmost delight.

**ATTEMPT TO RELEASE A PRISONER.**

Las Vegas, N. M., April 3.—This evening two desperados, David Endabugh and John Allen entered the jail there, shot and fatally wounded the jailor, and attempted to rescue a prisoner named Webb under the sentence of death, for robbery. The would be rescuers were scared off before they could accomplish their purpose.

A posse is in pursuit of them, and if captured they will certainly be lynched.

**A GOOD IDEA.**

Chicago, April 3.—The Chicago Times proposes to introduce a new feature in its columns, a news paper for making preparations to fit the size of its sheet every day, according to the amount of news it has to publish.

Conservative 95 column paper will appear by this means. The Times expects to avoid the necessity of printing a triple or quadruple sheet when additional space is needed.

**ON THE ROAD AGAIN.**

Paris, April 3.—Francesca affirms that a complete understanding exists between the religious fraternities, the Episcopacy and the leading conservatives regarding the necessary steps to be taken in the movement in relation to the unauthorized congregations. The *Gazette de France* announces that the general meeting to be held to-day of the superiors of unauthorized congregations for the purpose of adopting a joint decision and common plan of action to which all bodies will conform.

The Times is in eager on elections, says: The first question which arises is what is to be the composition of the new cabinet. Lord Harlington, in a recent speech, seemed to imply that it was in some degree an open question as to who would lead the Liberals. It will be for Lord Harlington to advise the nation as to his official chief. The Parliamentary leader of the Liberals is Lord Granville, who has every claim, on the ground of his past services, rank and ability to become a premier. Lord Harlington will hold an important position in the cabinet, and in his party in the House of Commons.

A correspondent of the Times at Berlin says he has reasons for stating that in highest official circles the prospect of a Liberal victory in the Parliamentary elections in England is regarded with no small alarm, and trembling at the moral belief is expressed that the peace of Europe would be much more assured under Tory than under Whig vote.

A's Petersburg correspondent of the Standard states that the government bearing a judicial aspect to the Whig-Hill-House, will shortly be sent to Paris with a note to Premier De Frey only, and that if, after this French Government shows a conciliatory disposition, it will be improbable that Prince Orloff will return to Paris as Ambassador after the Russian Easter holidays.

A despatch from the Times of the Sunday of the week takes the greatest interest in the case of the assassin of the Russian Colonel Commeroff, and being convinced by the e of him that the assassin is insane, he believes he would commit a crime by executing him.

Edward Birke and Sir Edmund H. Lester (Conservative) for Norfolk north; Lord Drake and Sir John W. Miles (Conservative) for Somersetshire, east; Sir Alexander H. Gordon (Liberal) for Abergavenny, east, are re-elected without opposition. The defeat at York (city) of Right Hon. James Lowe, who was a candidate of the Standard for Ireland, is received with wild delight by the Home Rulers and Nationalists in Ireland. Sir John Luberrick, a Liberal, who was defeated at Maidstone, will probably stand for the Radnor District, the only one left.

Mr. Harlington, the Liberal leader, is successful in North East Lancashire, the latter having been elected for the Radnor District, and not for Lancashire, as previously announced.

The poll for London University opened on the 3rd ultimo, and will continue until Monday next. The voting is in full swing, and not by ballot. Up to noon to-day the Right Hon. Robt. Lowe (a Liberal), Chancellor of Exchequer in Gladstone's government, received 957 votes, and A. Charles (Conservative), received 494 votes.

### YESTERDAY'S PROCEEDINGS OF THE 46TH CONGRESS.

House in Committee of the Whole—Mr. Covert, of N. Y., Addressed the Committee on the Subject of Tariff

HOUSE.

WASHINGTON, April 3.—The House met this morning (Mr. Carlisle, of Kentucky, in the chair) for debate only, and immediately went into committee on the subject of the Whole on the state of the Union.

Mr. Covert, of New York addressed the committee on the subject of the revision of tariff. He had come to the other day to refer the "Townsend" bill to the committee on Ways and means, not because he was not in favor of the revision of the tariff, but because he had thought that that was the committee which, under the rules, had jurisdiction over the subject. He argued especially in favor of the reduction of the duty on steel rails, and in favor of placing chrome ore on the free list, but though he desired the revision of the tariff, he desired it made in a legitimate, orderly way, and would therefore oppose any project looking to the appointment of a commission on the subject of tariff revision.

### THE ICE FIELDS.

Plenty of it in the Ocean White Scarce on the Continent.

New York Times.

A warm winter, like the one just past, lessens the quantity of ice formed in these latitudes, but it very much increases the quantity which comes floating down from the regions of endeavor, and the breaking of the ice of the Baffin Bay and the Arctic.

Sales of American were small and the quotations are accordingly reduced. The market has been limited but the prices dull without change. Futures opened after the holidays and continue so, the prices showing a decline of 1-16 on last week's quotations.

# DAILY NEWS

SUNDAY, APRIL 4, 1880.

GEO. C JORDAN, Editor and Prop.

The Democrats of Vermont are for Gen. W. T. Hancock.

Mr. BENT has made a proposition to the A. & N. C. Railroad Directory to lease their road, with what results we've not heard.

The skeleton in Georgia's closet is independent Democracy. Independence is prolific of more harm to Democratic success than anything else.

BROTHER Carpenter of the *Newbern* is out in a very caustic editorial on Bob Furman, of the Asheville *itizen*, because of his remarks on Judge Merrimon. Don't get hot under the collar.

The very air is full of railroad combinations, the disease is breaking out all over the country. They are becoming so powerful in some States as to control legislation. They are the most squalid corporations that ever existed.

FRIDAY was a good day for hanging—four men were hung—one in Vermont, two in Kentucky, and one in Washington, D. C. The Washington man's head was pulled entirely off his body. All four were hung for murder.

We learn from the Asheville *itizen* of the death of Col. Wash Hardy who was for a number of years Reading Clerk of the N. C. House of Representatives and also for some time House Librarian at Washington, D. C.

TILDEN has carried Nebraska. The six delegates from that State to the National Democratic Convention are instructed to go for him. Rhode Island gives him eight more, making fourteen. They are all the Democratic delegates chosen as yet.

The Elizabeth City *Carolinian* is very sanguine of the nomination of John Sherman for President at Chicago. So are the Blaine and Grant men for their favorite. We think the nomination will be all the Rads will be able to accomplish, the *Carolinian* to the contrary notwithstanding.

GEN. GRANT in his late Southern speeches counsels peace. Didn't he say in his first letter of acceptance of the nomination for President, "let us have peace"? Instead of "peace" we got armed soldiers to keep our Legislators from the State House. Remember "the leopard never changes his spots."

The Steamship Santiago de Cuba, plying between Cuba and New York, put into Beaufort last Wednesday for repairs. She is 1500 tons register, draws nineteen feet water and has a cargo worth two million dollars. Soundings were taken on the bar soon after the vessel's entrance which showed twenty-two feet of water. Why can't we build up this port?

VANDERBILT's income is estimated at \$17,000 a day, and his entire wealth at \$130,000,000. The other day he drew from the United States treasury over \$300,000, being the quarterly interest on \$31,000,000 that he has invested in government bonds. Yet the tax collector of New York cannot find, for purposes of taxation, any personal property belonging to him.

We clip the following from the *Philadelphia Times*:

Since Secretary Sherman is in Ohio he may find it necessary to stay there till after things are fixed for certain. Ohio has a way of cutting up antics, even with favorite sons, which sometimes make those interesting human beings for et al their obligations not to swear. The great Finance Minister had better keep his grip on Ohio—if he has any grip.

Our contemporary, the *Border Review*, says:

"It seems to be very generally conceded that in case the present incumbent, Hon. J. J. Davis, is not in the field, Granville, Johnson, Nash and Wake will be sold for Gen. W. R. Cox."

Judge Cox is a high-toned Christian Gentleman. No man in the district would reflect more credit upon his constituents than he should be nominated. He has efficiently and honestly performed every public duty to which he has been called.

The Philadelphia *Times* says of Tilden: "Samuel J. Tilden is one of the best known of our public men from all the various partisan and factious standpoints, and yet he is one of the most difficult of public characters to portray. He is one of the most prominent of Democratic Presidential candidates, while his strength is the most difficult of all to estimate. He is the most and the least known of the whole large brood of Presidential aspirants, and possesses elements of power and elements of weakness which attach to none of his competitors. He can create more enthusiasm at long range and chill more men by nearness of contact than any other man in the country, and he is the wisest and weakest of party leaders." However this may be, he is undoubtedly one of the best party organizers in the country.

Our friends of the First Congressional District have a hot political campaign before them. It will no doubt take hard work for us to come out all right "on the home stretch." It's useless for us to think the track is an easy one to travel. The rads are determined to elect their man if possible. They will spend both time and money freely. We understand that the present incumbent Mr. Martin will not be re-nominated, he being entirely too conservative for the Republican party—we think now that Walter Pool of Elizabeth City is the coming man. Mr. Pool is decidedly a man of talent. He is a good speaker, besides being a man of popular manners. Among other Republicans who would like to get the nomination, we find the names of Judge Moore, Gus. Moore and C. W. Grandy. We advise our friends of the first to put the strongest man on the ticket and crystallize the entire Democratic strength on the nominee and all will be well. We do hope they will not allow past antagonisms to influence their loyalty and duty to the success of the living principles of Democracy.

It is further ordered, that any case in bankruptcy pending in said district on the first day in July, 1880, wherein debts have not been paid according to this order, and wherein the bankrupt or bankrupts shall have failed or neglected to procure a final discharge shall be finally dismissed, and a decree to that effect properly entered by the Clerk of each day provided, that in case the same shall give good reasons for its continuance, shall not be affected by this order.

Red Hair and Sixty-Three.

Atlanta Constitution.

The great discrepancy between Mr. and Mrs. Christianity may be definitely stated in few words. He is sixty-three and she is red headed. And we'll be bound that no young lady with red hair and a plump body will be able to resist him. He is bound to be tyannized over by a brute of a man sixty-three years old, who thinks that a glass of grog and an afternoon nap constitute the wildest sort of dissipation. So there!

THE NATIONAL Government has ordered that twelve girls and twelve boys of the best families residing in the more western counties of the State, be educated at the expense of the Government at the Asheville Female and the Weaverville Colleges, the girls to be taught here and the boys at Weaverville, for the purpose of enabling them to meet their own people. To this end Mr. Branner, of the Asheville Female College, accompanied by Dr. W. D. Hilliard, left here Saturday morning for the purpose of selecting these scholars. The sprightliest and the healthiest of the tribe will be selected.

The following is an extract from a letter written to the *Green Reformed Messenger* at Chambersburg, Penn.:

Just open the door for her, and Mrs. Winslow will prove the American Nightingale of the Nursery. Of this we are so sure that we will teach our "Sussy" to say a blessing on Mrs. Winslow, for helping her to get through the terrible safety during the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soother for Children Teething." If we had the power we would make her, also, a physical saviour to the infant race. Sold by all druggists.

**COON VALLEY, Ia.**, March 9, 1880.  
Mr. Luther Sifford—DEAR SIR: I saw in the Wall Lake Journal an advertisement of yours, looking for a wife, and being a candidate for matrimony, I thought I would make application through the columns of the paper. There is nothing small about me, not even my feet. Mr. S., you are recommended to me by a lady friend of mine who has met you in her travels. I am a young lady, aged 19, black hair and eyes, a rosebud mouth, and a dimpled chin. I will now close, hoping to head from you soon. Sincerely yours,  
"P. D. INMAN."

**Belgium Villages.**

—There is a district in Belgium where a chain of villages along the valley of the Geer form a sort of immense street. The soil is clayey, but crossed at intervals by streams which give to streams raised there an exceptional strength, pliability, and brilliancy. This district is the seat of the Belgian straw trade, in which some 40,000 persons are engaged, and each earner up to \$800,000. Every spring 3,000 or 5,000 migrate to work in the principal cities for a few weeks. The chief seat of the industry to-day is Roeselare, a beautiful village surrounded by the villas wealthy straw makers.

None receive so much benefit, and none are so profoundly grateful and show such an interest in recommending Hop Bitters as women. It is the only remedy particularly adapted to the malady. The seas are universally subject to colds, chills and fever, indigestion or deranged liver, constipation or periodical sick headaches, weakness in the back or kidneys, pain in the shoulders and different parts of the body, a feeling of lassitude and debility, are all ready removed by these Bitters.

Have Achieved the most noted success of any Medicines of Modern Times.

Messrs. Weeks & Carter have never doubted the specific properties of Cuticura, Cuticura Resolvent, and Cuticura Soay, for the speedy, permanent, and economical cure of all the diseases of the skin and scalp. They are the only ones that have had universal success; for it was to be expected that in the hands of some they would fail, from spasmodic or ignorant use of them.

They are enabled to say without fear of contradiction, that no one has ever had such success in the treatment of one of the number of wonderful cures performed by the CUTICURA REMEDIES.

Messrs. I can and do heartily advise all similarly afflicted to try the remedy which has been so effectual in this case.

Very truly yours,  
CHAS. HOUUGHTON.

And Dyspepsia Treated by the Resolvent, Gaining 5-12 pounds on One Bottle.

GENTLEMEN—I have had Liver Complaint and Dyspepsia, with running sores on the side of my neck, for ten years. Doctors did not know what to do, and I was given up, and it did me no good. Everything I ate distressed me. I got reduced from 1 to 12 pounds. At last I got a Druggist to prescribe a medicine, which I took about ten (10) years, covering the greater portion of the patient's body, and limbs with its peculiar irritating action, scab, and the like, which the then method of treating such diseases had been applied without benefit, has completely disappeared, and is now a thing of the past, under a few days of profuse application of CUTICURA.

Coming upon a very good time in our sales, and having faith in the rise of prices, which were at the lowest point reached during a long period of depression, we began as early as June last making contracts for domestic goods, which gives us the advantage of getting and saving the greater part of these goods at figures much lower than their present values.

We are prepared to sell the wholesale and retail trade at such prices as will make it to their interest to give us the greater part of their patronage.

W. H. & R. S. Tucker.
